

# Experience Your National Park!

## Outreach Programs

Bring your national park to your classroom. Have park staff visit your school, meet your students, introduce the purpose and mission of national parks and give a virtual tour of our national treasures. Outreach programs are a wonderful precursor to your field trip.

## Guided School Group Field Trips

Have park staff help your class to explore nature & discover history in their national park. Our tailored tours are specifically designed to meet the needs of your class.

## Self-Guided School Group Field Trips

A self-guided program is another way for groups to explore the park. Classes are welcome and encouraged to visit War in the Pacific National Historical Park.

To schedule a field trip or outreach program, please fill out the [Experience Your National Park Application](#) and email it to [educationspecialist@pacifichistoricparks.org](mailto:educationspecialist@pacifichistoricparks.org).
